

SERVICE MANUAL

DAIHATSU

TYPE T1E-N1

Transfer

FOREWORD

This is a service manual for Type T1E-N1 transfer.

Type T1E-N1 transfer is a lightweight transfer used exclusively for full-time 4WD vehicles. Although the hitherto-employed transfer came in two types, namely one for the manual transmission use and the other for the automatic transmission use, Type T1E-N1 transfer can be used in common both for the manual transmission and for the automatic transmission.
